

Neonatal Abstinence Syndrome (NAS)

Continuing Pharmacy Education Activity

When May 12, 2020 - 2:00pm - 3:00pm

Where Novant Health Prince William Medical Center
Manassas, VA
<https://novanthealth.zoom.us/j/97551369918?pwd=UnR4WWRkRUwxTCtQeUhaSmdYMmpuUT09>
Password: 934699

Itinerary See following page

Educational Goals This CE will help those pharmacists understand various treatment options for NAS. In this way, they can contribute to the treatment management of neonates experiencing NAS by providing appropriate therapy recommendations. This will lead to better outcomes and comprehensive patient care.

Learning Objectives At the end of this activity, the pharmacist will be able to:

- Define pathophysiology and clinical presentation of neonatal abstinence syndrome (NAS)
- Identify the substances of abuse that can lead to NAS
- Compare different screening and assessment tools for NAS
- Evaluate various treatment options for NAS
- Apply management principles to optimize therapy for NAS

Faculty Hina Afaq, PharmD
PGY1 Resident
Catherine Sury, PharmD, BCPS
Clinical Pharmacist, Novant Health
