

Hepatitis C: What Pharmacists Need to Know

Continuing Pharmacy Education Activity

When Homestudy Webinar

Where supharmacy.learningexpressce.com

Itinerary N/A

Educational Goals This CE will provide pharmacists with the knowledge of current hepatitis C treatment guidelines and the pharmacology, adverse reactions, and drug interactions associated with these therapies.

Learning Objectives At the end of this activity, the pharmacist will be able to:

- Identify patients who are at risk of contracting hepatitis C
- Explain the pathophysiology of chronic hepatitis C
- Describe the pharmacology of the direct acting antivirals used to treat chronic hepatitis C
- Discuss the most common drug interactions associated with hepatitis C treatments

Faculty Staci Eastin, RPh e-mail: seastin20@su.edu
