Itinerary See following page

Educational Goals This CE will provide an introduction to new, and reintroduce existing, pharmacists to WellSpan specific and reputable external resources to help guide antimicrobial selection and decision making, while building confidence in verifying orders and answering antimicrobial related drug information questions.

Learning Objectives At the end of this activity, the pharmacist will be able to:

- Review the importance of Antimicrobial stewardship
- Select appropriate antimicrobial coverage based on York Hospital's Antibiogram or fungal antibiogram
- Choose an appropriate antimicrobial regimen based on York Hospital's adult empiric guidelines
- Recognize available resources that can be used to answer antimicrobial related inquiries
- Recall the treatment duration for microbial infections most common at York Hospital
